

The Equitable Life Assurance Society of the United States was organized in 1869, with assets amounting to \$120,772 and located in that year 27 policies. In 1869, the number of policies issued was 13,072; amount insured, \$50,492,941. Total assets Jan. 1st, 1870, \$10,510,824. The Equitable has outstripped all other companies in the United States in the number of policies issued, and never had but one case of litigation, and that case it won. It is the only company that has not been the victim of a swindle, but because of different parties claiming the amount of the policy called for.

## Miscellaneous Items.

FRANCE has paid 100,000 francs war indemnity to the Germans.

FINANCIALLY cramped as France is she refuses to levy an income tax.

THE Monthly Statement of the public debt for June shows a reduction of \$710,344.99.

JAMES McCARTHY, of the Bee, has been appointed Collector of the Port of Sacramento.

THE Supreme Court of Massachusetts has decided that women are ineligible to hold office.

AN extensive conflagration occurred at Yreka on the 4th, destroying one-third of the town. Loss about \$300,000.

THE Versailles Government has released 15,000 Communists, but retains another 15,000 for trial—a rather heavy docket.

15,000 acres of tule land have been reclaimed by the completion of the main dam on Brannan Island, Sacramento river.

SAM Brannan has sold his San Francisco property, and avows his determination to devote his entire attention hereafter to his California property.

WILLARD Young, the Mormon cadet at West Point, told an interviewer the other day, that he has sixteen brothers and twenty-two sisters.

FORTY-SIX thousand ounces of bullion were received at the Branch Mint in Carson, Nevada, on July 3d. This is the largest amount ever received in one day.

THE San Francisco Bulletin candidly admits that the blame for letting down the bars to lottery ought in justice to be divided between the two political parties.

WINNEBAGO county, Iowa, boasts a cave with the pleasing peculiarity of being itself with ice when the weather is hot, which melts away on the approach of cold weather.

TWENTY-SIX thousand children are now learning the Boston public schools. Fifteen thousand of them are so far advanced as to be competent to take part in a musical festival.

NEW YORK devours nearly a thousand barrels of eggs daily. Each barrel contains fifty dozen or more, so that the daily consumption is not far from a million eggs, and the cost to the consumers about \$10,000,000 a year.

OUT of nearly fifty firemen of Fort Wayne, Indiana, who were burned at the kerosene explosion, on the 7th of June, not over one is yet convalescent. Some received injuries that will disfigure if not cripple them for life.

AN eastern exchange says, "It is believed that if the secret and police administration could be explored, one hundred millions of dollars would not cover the defalcations of the government officers since Grant's administration came into power."

THERE was a happy reunion of about twenty veterans of the war of 1812 in Monroe, Michigan, a few days ago, at which General George A. Custer and Senator Morton made brief speeches. The oldest of the veterans is 100 years and seven months old, and their average age was 90 years.

THE San Francisco Call says that it has been arranged by the Judges of the Supreme Court that the appeal of Laura D. Fox shall not be considered until next October, and as the prisoner has been sentenced to be hanged on the 28th inst., the Governor will grant her a respite until the appeal is considered.

A GREAT WORK—CHICAGO, June 22.—The great work undertaken by the city of Chicago some three years since, of deepening the summit level of the Illinois and Michigan canal, so that the waters of Lake Michigan might find an outlet to the Illinois and thence to the Mississippi River and the Gulf, is nearly completed, and the pure waters of the lake will soon displace the foul contents of the Chicago River. To-day at 11:30 o'clock, the workmen commenced removing the massive stone blocks which cap the walls of the lock at Bridgeport, and on Saturday night, the 24th, the water will be drawn off the canal. Dams will be put in above, and below the lock, and the north side of the structure will be entirely removed, and the channel widened to about forty feet. While this is being done the lock and the lower end of the levee will be removed, and all obstructions to navigation taken out. The contractors are very sanguine in the belief that this work will be completed and navigation resumed on the lake level by the last of July.

THE SITUATION AT SUTTER CREEK.—The Annular Ledger of the 8th inst. says: "During the week various reports about the miners' difficulty in this county have been afloat. At one time we heard that all has been settled, and just as the community begins to rejoice over it another report is started that unless the soldiers are removed no work will be done. So we go, and nothing positive can be ascertained. As we now understand the matter, the miners have accepted the proposition of the mine owners, and will go to work on the following terms: The men working under ground to receive \$2.50 and \$3 per day, and those working on top to receive the wages they were getting before the strike. If this information is correct, and we hope it is, work will be resumed in all the mines."

GETTING RID OF THE CHINAMEN.—The Plumas National of the 16th, has the following: "The China camp, a nuisance which has long disgraced our city, is a thing of the past. We are not certain whether an earthquake, a whirlwind, or a visitation of the Ku-Klux was the cause of its downfall, but it is rather inclined to attribute it to the latter cause. Anyway, it came to grief on Sunday night last, and the morning sun revealed only a pile of ruins where it stood the day before, and a sorrowful Celestial gazing gloomily at the scene of desolation. The square can now be cleaned up, and that portion of the town much improved in appearance."

PLAIN TALK.—What in the world is the matter with "Fighting Joe Hooker"? Evidently he has not the fear of the Ku-Klux before his eyes, or he would not dare to write as follows of His Imperial Highness, Ulysses S. Grant: "It is my absolute conviction that were you to walk the length of Broadway you could not meet a man less qualified for the Presidency than Grant. We of the army know him better than the people at large. When his Adjutant, General Rawlins, was alive, the President seemed to be efficient and successful, but when Rawlins died, Grant's bottom fell out. He is now in his normal condition."
